MADE IN USA

Who knew it would take a dose of advanced digital audio technology to help you sleep? The 1288A features incredibly realistic sounds played back by a high quality speaker, built into a carefully engineered housing- all designed to lull you to sleep with the very best sound possible. The Marsona 1288A has user-friendly touch controls and LEDs to highlight selected sounds; slide controls for tone and volume allow for a sensation of sound range.

masks office chatter –
keeps conversations
confidential

helps travelers feel
at home, sweet home

helps shift workers
sleep while the world
is awake

is like a lullaby for babies
(and their parents)

MARSONA[®]

1288A

brings relief for
tinnitus sufferers

"saves marriages!"
say spouses of snorers

creates a sound study
zone in dorm rooms

blocks out the loud guy
in the apartment upstairs
