

Welcome to **marpac** and
SERIOUS SLEEP®

YOU'LL *Love* THE WAY YOU SLEEP!

► It may take up to a week to adjust to your new sound conditioner. Experiment with the placement of the machine; place the unit away from the sleeper to allow the sound to fill the room. If most disturbing noises comes from one direction, place the unit between the user and the source of the noise. Sound conditioners are also useful for concentration and confidentiality in the workplace.

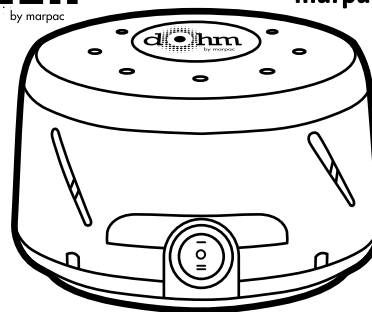

We'd love to hear from you!
