Sonic-connect™ 2
SEC200 USB Media Alert

SKYPE **OUTLOOK** **IM** **EMAIL**
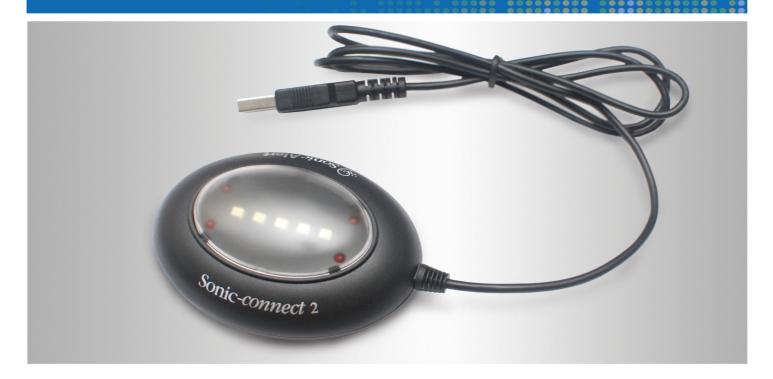

Need to step away from your computer, run an errand or maybe put the baby down for a nap? No problem. Our new Sonic-connect™ 2 portable USB device alerts you to many of the most popular instant messaging services, email, Skype, and other computer notifications like calendar entries and task reminders, so you'll never miss out again. The Sonic-connect 2 will keep you in touch with bright white flashing LED's, an array of red LED's (message waiting lights), a loud ringer and vibration. Even from across the room, you'll know at a glance if you have an incoming or waiting message. Your Sonic-connect 2 will be easily upgraded for future compatibility with things like video conference calling, all at no cost, by periodically downloading available updates from on our web site.
