## TimeShaker Boom

**TSBOOMULBK**

### **Vibrating Shaker**

The TimeShaker Boom comes with a rechargeable wireless patented shaker that allows you to subtly wake up without disturbing your partner. Each shaker contains 3 different vibration levels - normal, strong and earthquake – so you can personalize how strong you want it to wake you up.

### **Panic Volume**

Deep sleepers need not worry. The TimeShaker Boom features an adjustable volume that peaks at the 120dB panic alarm tone - the same level as a hammer drill.

### **Bright Alert Light**

If the high volume doesn't wake you, we've got backup. The TimeShaker Boom also includes a super glistening alert light that flashes when your alarm goes off.

### **Take Charge with the USB Charging Port**

Powering up just got more convenient. The TimeShaker Boom contains a built-in USB port allowing you to charge your phone right at your bedside.
