

Sonic Alert

America's Leader in Visual Alerting Systems.

**With a lighted switch, "pluglet" & new design the USS360 is now
a full functioning desktop signaler.**

Sound Signaler USS360

The USS360 will alert you to "any" important sound:

phone, telephone, kitchen timer, baby etc.

The USS360 alerts you by flashing a lamp or light "ON and OFF" that is plugged into its "pluglet" as well as in other rooms where Sonic Alert remote receivers (eg. SB1000SS, BL300 strobe, RH100 Horn) are located

The built-in "ON and OFF" switch allows the lamp to be used for general lighting as well as signaling.

There is a sensitivity control so only a sound at your preset level will activate the unit.
